

TRECATE, R.
Appl. No. To be assigned
US National Phase of PCT/EP02/14792
July 8, 2004

REMARKS/ARGUMENTS

Claim 1 was amended during the international phase. A copy of the amended sheet is separately attached. It is respectfully requested that the amended sheets to the specification, claims and drawing, submitted herewith be examined for this application.

The specification has been amended to include a cross-reference to the parent applications and to include the abstract.

An early and favorable action on the merits of the claimed invention is requested.

Respectfully submitted,

NIXON & VANDERHYE P.C.

ABSTRACT

Combined regulation of the power supplied by the conditioner and of the air flow rate of the conditioner is carried out so as to maintain the temperature gradient between air entering and air leaving the same conditioner high, in order to allow perfect functioning of displacement system (without mixing) in any condition of service.
